བརྟན་རྒྱལ་སྲིད་པོ།
MINISTER

FORWARD

In accordance with section 138 of the Companies Act of the Kingdom of Bhutan, 2000, the Ministry is pleased to adopt the Regulations for *Accounting Standards Rules for Companies in Bhutan, 2012*. The purpose of the Regulation is to provide a legal framework for adoption of newly issued *Bhutan Accounting Standards* and such other financial and auditing standards to be issued in the future by *Accounting and Auditing Standards Board of Bhutan (AASBB)* for the Companies in Bhutan. In recent years the importance of financial transparency in the corporate world has become a necessity, due to the recent financial turmoil around the world. It has become essential to adopt financial reporting standards at par with International Financial Reporting Standards (IFRS) as the Bhutanese economy needs to be a competent player in the international market. This will ensure foreign investment into Companies in the Country and close business ties with world's leading business houses to transfer technology and best business practices.

The Bhutan Accounting Standards issued by the AASBB will replace Schedule XIII of the Companies Act, which is a set of Generally Accepted Accounting Principles (GAAP), no longer relevant internationally as well as in the country. The new standards are expected to be enforced among Companies starting 2013 onwards to achieve complete enforcement by January, 2018. By 2020 even the Bhutan Accounting Standards is expected to be fully compliant to International Financial Reporting Standards.

Finally, with the adoption of this Regulation, the Companies and Financial Institutions would benefit immensely in terms of achieving transparent and sound financial reports and book keeping. It will also foster a culture of maintaining transparent financial statements of both public and private Companies in the country. This Regulation will go a long way in achieving a vibrant and sound corporate culture in the country.
